Carlos,

I have heard nothing more about the key. Can we cut the lock and replace it with our own, as you said we could when you and I spoke before you sent the below to Mescher?

Mescher's unresponsiveness to your request is a prime example of her obstructing progress at Arkwood. The owner stands to lose a prospective industry occupant for the revitalized Arkwood site because access to the site is denied the owner by McKesson/ Mescher.

Thank you,
Curt

Please provide a key to Mr. Grisham so that he can have access to the Arkwood site.
Mr. Grisham needs access to conduct general site visits. The soil/surface cleanup at the site has been completed and there should not be concerns with potential exposure to site contaminants. Thanks CAS
